Dear Stakeholder,

In Argyll and Bute we continue to develop and make improvements for a truly excellent education system to reach the national ambition of making Scotland the best place in the world for a child to grow up. In Argyll and Bute the message is even clearer; these are *Our Children* and this is *Their Future* and we want Argyll and Bute to be the best place in Scotland to grow up and for young people and families to remain in this area.

We aim to deliver an equality of educational opportunity and improve attainment for all. This starts from the work we do with families before a child is born all the way through to securing positive destinations for our young people at the end of their school career.

As such we want to involve all our schools, families and partners in reviewing our current Education Vision and Strategy (Our Children, Their Future). Starting in November your views will be sought to help us form this refreshed Vision and Strategy ensuring our children and young people continue to be at the centre of education.

There will be different ways to give your views and further information and support will be made available at the start of the consultation.
